

## SUMMARY

To search for a position that will allow me to improve my current programming, communication and teamwork skills. From this position, I also seek the opportunity to learn new skills for future use

## SKILLS

- HTML
- CSS
- Tailwind CSS
- Javascript
- Python
- SQL
- REACT JS
- NEXT JS
- Django
- DjangoORM
- Restfull API
- Git
- Github

## LANGUAGE

- ENGLISH
- HINDI

## Certifications

- Python - Great Learning
- Machine Learning with Python
- Sql Basic to Advanced- Udemy

## Key Competencies

- Api Integration
- Authentication
- Performance
- Optimization Security
- Best Practices

## PROJECT

### E-Commerce site using Django

Developed a fully functional e-commerce platform for online retail using Django, where users can browse products, add items to their cart, complete checkout, and manage their orders. The site includes user authentication, payment processing, and admin features for managing inventory and orders. Enabled smooth online shopping experience for users with secure transaction

### Nike-Lnading page

This is a Nike website clone designed to replicate the clean, modern, and user-centric interface of the popular global sportswear brand. The clone includes a fully responsive design built using HTML, CSS, JavaScript, and NextJs. The website features product listings, detailed product pages, and an intuitive shopping experience. Users can browse through various categories like footwear, apparel, and accessories, with filters to narrow down their preferences.

### Global Technology using React

Global Technology Service – An innovative platform dedicated to empowering businesses and individuals through customized website creation services. Specializing in professional, responsive, and user-friendly web solutions, it simplifies website development for users of all technical levels. Catering to startups, small businesses, and enterprises, it offers a range of customizable solutions to meet diverse business needs.
